River Way Harlow

Approved Inspector Services

Wilkinson Construction Consultants were appointed as Approved Inspectors on this project for Traxx Tyres in Harlow.

Although new to the UK tyre business, Traxx has plans for up to 11 regional warehouses to offer nationwide coverage within 24 months.

Harlow is one of the first of these and despite offering 2833 m² of floorspace Traxx needed another 900m² of raised flooring and appointed Alba Systems to install a mezzanine floor.

Alba systems mostly work in Scotland and were unfamiliar with the English Building Regulations so chose Wilkinson Construction Consultants to help them through the process.

The mezzanine floor exceeded the size guidance in the Approved Document for an un-protected structure so extensive discussion with Essex Fire and Rescue service was required throughout.

Work was completed in August 2011

Client
Traxx Tyres

Contractor
Alba
Structural Systems

Project Value
£ 50K
