Approved Inspector Service and CDMC

WCCL have been appointed both as Approved Inspectors and CDMC for the scheme by Boyden Group, on behalf of the NHS trust.

Architect
Studio
Klaschka
Limited

The project includes a rear extension and remodelling of existing health centre, including some structural works. The existing ground floor will be re-modelled to allow for more efficient room shapes and better accessibility for people with limited mobility. The existing WC's did not comply with the guidance in HBN 00-02 Sanitary Spaces and the current 'treatment' rooms are very long and had no acoustic privacy. The scheme produced by the Architects Studio Klaschka transforms the space to meet the requirements in the NHS HBN guides, and provide a bright welcoming and useable space.

**Project
Manager**
Boyden Group

WCCL attended a number of early DTM to provide guidance pre-tender, which was welcomed by Philippa Grantham, the Lead Architect on the scheme. In particular WCCL advised on structural design related to flood risk issues, acoustics, fire escape routes, signage and disabled access requirements. The project went out to tender in Nov 2012, and WCCL have been retained to issue the F10, oversee the appointment of a competent contractor and the construction phase safety plan, as well as acting as Approved Inspectors.
