Approved Inspector Services

Wilkinson Construction Consultants acted as Approved Inspectors on phase I of a scheme to transform a disused building in Southampton into a retail and assembly building. The building had fallen into a state of disrepair before being transformed into the Victor Hugo Boulangerie offering great traditional French flavours and atmosphere.

Design

The scheme needed to be fast tracked through the approval process and therefore WCCL arranged to meet the Fire Officer on site to allay concerns over fire safety of the new ovens and diesel generator. The architects, clients and Fire Officer alike praised our approach which avoided delay to the scheme and ensured that necessary fire precautions were incorporated into the scheme as works progressed.

Sector
Retail &
Assembly

A further two phases are planned including installing a mezzanine floor to double the number of covers.
